

# Whom To Leave Behind

Instructions: The twelve persons listed below have been selected as passengers on a spaceship for a flight to another planet because tomorrow the planet Earth is doomed for destruction. Due to changes in space limitations, it has now been determined that only eight persons may go. Any eight qualify.

Your task is to select the Eight (8) passengers who will make the trip. On your own, take approximately 5 minutes to decide your top 8 to make the trip. Next, the entire group will come together and decide as a group the eight (8) passengers who will make the trip. PLEASE NOTE: When you make your decision as a group EVERYONE must agree on the final eight passengers and come to a consensus.

You are NOT allowed to vote or take a 'majority rules' decision.

-----
